

Medical 4th Chain

Summary

1. Seoul National University Medical Center-oriented project to utilize DNA data.
2. DNA testing is the basis of precision medicine that can turn disease into prevention, not treatment.
3. Among the data obtained through the DNA test, M4th focuses on female cancer and diabetes of Asian descent
4. Collect funds and collect and process genetic data through free DNA tests to sell data to pharmaceutical companies and medical institutions/ institutions.
5. Pharmaceutical companies use the data to develop targeted women's cancer and diabetes treatments.
6. Make an immediate payment and conduct DNA test through M4th token to medical institutions in collaboration.
7. Income from the sale of DNA data is disclosed and distributed transparently to the DNA data provider on a blockchain basis.

Introduction to Medical 4th Chain

Configuration	Global project created by medical and research institutes, DNA specialists, blockchain specialists.
Characteristic	M4th's first project to distribute data by issuing blockchain-based coins.
Listing	First issue of a specific DNA data market coin in the cryptocurrency market.
Token Competitive	<ol style="list-style-type: none"> 1. Integrity of data (Privacy Protection) 2. Distribution structure and revenue disclosure. 3. Medical A.I. Complete with Big Data Composition. 4. Organize development into the best expert group. 5. More than two TOP 20 exchanges to be listed

M4th TGE

Total Token	400,000,000 M4th
Sales	110,000,000 M4th
Listing Price	1 M4th = 50 KRW

Road map

- 2020. 1Q** Whitepapre release
1st Dapp Open
M4th token release
Token listing
- 2020. 2Q** DNA Labs and Global Pharmacy M&A
- 2020. 3Q** TestNet/Wallet release
- 2020. 4Q** M4th Starting payment for medical and pharmaceutical expenses
- 2021. 1Q** Pharmaceuticals M&A
World top tier Coin Exchange listing

Token Share

Business model

- ◆ Created Money Pool (HP:Health Point, exchangeable by M4th as a common point within the platform) for free DNA testing with TGE funds
- ◆ Distribution of HP within the platform for DNA testing to the M4 constant condition holder
- ◆ When HP is distributed, DNA testing at the designated DNA labs and data donation
- ◆ Formulated DNA data and sold to global pharmaceutical companies, etc.
- ◆ Fill the sold amount back into the HP Pool and distribute the rest to the DNA data provider
- ◆ Providing free DNA testing HP even with M4th
